ALASKA BASECAMP PACKAGES

MINIMIZING TRANSFERS • MAXIMIZING EXPERIENCES

When minimizing transfers is your goal, planning your Alaska vacation around a base camp is the answer. The idea is simple. Instead of planning overnights at several different destinations, pick just one as home base. Take day trips from there and return to the same lodging each evening. If you have the time, connect two or more base camps for a longer stay in Alaska. Here are a few ideas to get you started.

BASE CAMP: SEWARD

Tidewater glaciers and marine wildlife star in Seward. Kenai Fjords National Park is your playground, accessible by day cruise, helicopter flightseeing, and even guided hikes. Seward is also relatively easy to get around without a car, so if you'd prefer to travel by the Alaska Railroad or Park Connection Motorcoach, Seward works perfectly.

BASE CAMP: GIRDWOOD

In Girdwood you'll get a taste of coastal Alaska's towering trees and glacial peaks while still enjoying the ease of travel close to Anchorage (it's just 30 minutes away by car). From here you can experience glaciers three ways (rafting, flightseeing, day cruise), plus plenty of wildlife, local culture, history, and scenery. The Alyeska Resort, Alaska's only AAA four-diamond property, makes for an especially luxurious home base.

BASE CAMP: ANCHORAGE

You don't have to go far to go remote in Alaska. This makes an Anchorage base camp ideal for travelers who want a backcountry experience on a shorter itinerary. You'll stay at the beautiful Knik River Lodge, a road-accessible wilderness retreat with private cabins.

ALASKA CRUISES

INSIDE PASSAGE • GLACIER ROUTE

There's a reason why cruises have become one of the most popular ways to visit Alaska. The splendor of Alaska's fjords, coastal mountains, and tidewater glaciers is best admired from aboard a boat. Combine access to this raw natural beauty with great food, entertainment, eclectic ports of call, and fascinating shore excursions and you've got one remarkable Alaska experience.

GLACIER ROUTE CRUISES

Seven-day Glacier Cruises that travel between Vancouver and either Seward or Whittier are highly recommended. Because they travel one-way on northbound or southbound itineraries, you can easily add an accompanying land package to popular destinations like Denali National Park and Fairbanks. Cruise highlights include Glacier Bay National Park, Hubbard Glacier or College Fjord in Prince William Sound, and colorful port towns like Skagway, Juneau, and Ketchikan.

INSIDE PASSAGE CRUISES

Inside Passage Cruises typically sail on seven-day itineraries roundtrip from Seattle or Vancouver, BC. These sailings travel mostly through the Inside Passage in Southeast Alaska. They're a nice introduction to Alaska cruising. However, we usually recommend Glacier Route Cruises, not only to see more of Alaska's dramatic fjords and glaciers, but for the chance to explore by land before or after your cruise.

ALASKA CRUISE FINDER

Visit AlaskaTravel.com and check out our *Alaska Cruise Finder* for easy to understand information on Glacier Route and Inside Passage cruises from all major cruise lines. Information about cruise transfers and land packages is also available. You can browse cruise schedules by month or cruise line, request a no-obligation quote, or even book a cruise!

ALASKA TRAVEL

FREQUENTLY ASKED QUESTIONS

What is the best time to visit Alaska?

We love Alaska's summers. Because of the long days, many activities, and abundant wildlife, we recommend traveling mid-May to mid-September.

Do I need my passport to travel to Alaska?

Alaska is a U.S. state, so if you are a U.S. citizen you do not need a passport. If you are coming from outside the U.S. or traveling through Canada by cruise you will need a passport.

Can I travel to Alaska on a budget?

Absolutely, especially if you travel during the May and September shoulder season. Many hotels and transportation like Alaska trains offer discounts then. But even during peak season, we can help find you savings.

What are the best places to visit in Alaska?

Some of the best places to visit are Denali National Park, Seward and Kenai Fjords, Talkeetna, Fairbanks, and Wrangell-St. Elias National Park.

How will I get around in Alaska?

The three primary ways to get around are train, motorcoach, or rental car.

What is a self-guided vacation?

On a self-guided vacation, we provide a custom itinerary to follow but you will not be traveling with the same group or guide through the entire trip. You get to decide when you want to start your trip, where to go, and how long to stay.

Can I take an Alaska cruise and an Alaska land tour?

Yes, you can! We can recommend and book an Alaska cruise and create a custom land tour that flows seamlessly before or after.

Where do I start my vacation in Alaska?

Most travelers fly into Anchorage or Fairbanks. If you are sailing north on a cruise ship and want to explore Alaska by land afterwards, we can create an itinerary that starts in Seward or Whittier, the two most popular cruise ports on the northern end of Alaska cruise routes.
